TOM-TIT-TOT

Korean aesthetic-care brand and cosmetics launch partner

Owner of the TOM-TIT-TOT brand: development, OEM/ODM coordination and distribution

About the company

JETSGLOBAL is a Korean company, the owner and developer of the aesthetic-care brand TOM-TIT-TOT. It is responsible for product planning, formula development, branding and packaging design, and organizes manufacturing through a network of partner factories (OEM/ODM). The company does not own its own factory and operates as a brand owner, developer and trading-and-distribution operator.

The brand portfolio spans three directions: a professional aesthetic line for clinics and spas, a plant-placenta line, and daily home care with a high concentration of active ingredients. The company has its own registered scientific laboratory, two patents (including Korean patent No. 10-1707491), venture-company status, and trademark registrations in the markets of China, Vietnam, Malaysia, Indonesia and Thailand.

Besides its own brand, JETSGLOBAL distributes third-party aesthetic brands and supplies more than 10 countries through marketplaces (Amazon, Shopee, Lazada), with the B2B channel predominating. According to the company, EU CPNP registration references (via a Responsible Person in the EU) and US MoCRA references (via a U.S. Agent) have been filed; this confirms that registration requirements have been met but does not constitute product approval by regulators. For Latin American markets, materials are published through Teranova.

Owner and developer of the TOM-TIT-TOT brand

Own scientific laboratory, two patents, venture-company status

OEM/ODM through a network of partner factories (no own factory)

EU CPNP and US MoCRA registration references, per the company

Exports to 10+ countries, sales via marketplaces, predominantly B2B

Product lines

Aesthetic Premium

A professional aesthetic line for expert use only in salons and spas: functional actives in high concentration and carefully balanced proportions. Peeling solutions, ampoules, and care kits.

Placenta Line

A line with plant placenta from soy and rye obtained by cell-culture methods, combined with PDRN and vitamin complexes: essences, intensive creams and cream masks for nourishing care.

Daily Skincare

Daily home care with a high concentration of active ingredients, gentle and easy to use even for sensitive skin: serums, creams, cleansing, sun and body care.

Capabilities and manufacturing

Product planning and development

Product planning, formula development, branding and packaging design. Own registered scientific laboratory, two patents and venture-company status.

OEM/ODM through partner factories

Manufacturing under the client's brand is organized through a network of partner factories. JETSGLOBAL acts as an OEM/ODM coordinator rather than a direct manufacturer; ISO/GMP are provided per the actual manufacturing partners.

EU CPNP / US MoCRA registration references

According to the company, EU CPNP registrations (via a Responsible Person in the EU) and US MoCRA (via a U.S. Agent in the US) have been filed. This is fulfillment of registration requirements, not product approval by regulators.

Whitening X5 Serum

Exports and markets

The brand is supplied to more than 10 countries across Asia, North America and Europe, predominantly through the B2B channel; the company also states B2C sales via Amazon, Shopee and Lazada.

Exclusive partners are declared in Uzbekistan and Russia, while exclusivity is re-verified for each deal.

For Latin American markets, materials are published through Teranova.

Terms of cooperation

Cooperation formats

Wholesale supply of finished TOM-TIT-TOT products; distribution of third-party aesthetic brands; OEM/ODM — development and manufacturing under the client's brand through partner factories.

Minimum order (MOQ)

Non-exclusive distribution — one full case per SKU; exclusive distribution — a minimum monthly order from 8,000 USD; OEM/ODM — 5,000 units per individual product or 3,000 sets.

Pricing

EXW terms; an indicative price list with thresholds based on total order volume. The reference currency and final prices are clarified on request at the deal stage.

Timelines

In-stock items are shipped after payment; if an item is out of stock, the schedule is communicated in advance. OEM/ODM — usually about three months, longer with customizations.

How it works

Request → review and approval by Teranova → negotiations and samples → turnkey logistics, customs and payment.

Prices and terms are indicative and are clarified at the deal stage through Teranova. The supplier's direct contacts are not published. Registration references (EU CPNP, US MoCRA) are provided per the company and do not constitute regulator approval.
